Career Statement

I am a dedicated recent college graduate from the University of Oklahoma with a Bachelor of Science in Computer Science and a Minor in Mathematics. I come with 11+ years of job experience in corporate hospitality and guest relations, and 4+ years of working as a carpentry and masonry specialist in the Army National Guard. My experiences have made me adaptable, dependable, disciplined, and organized. I have thoroughly enjoyed app development, database management, machine learning, and process optimization projects. My favorite part of any project has been using math, AI, and technology to create visualizations that bring life to data, documents, and interfaces. I have diligently worked on many group projects, passionately mentored and trained many team members, and earnestly led groups and projects. I have a lifelong passion for learning new things, especially in areas where I am not particularly strong, and I strive to be a steadfast example for my 10-year-old son and for those whose lives I impact.

Skills

Github	C languages	R Studio	React Native	Applied Statistics
Copilot	Python	Azure SQL	Adobe CC	Numerical Analysis
Visual Studio Code	Java	VBA	Unity	Algorithmic Analysis

Education

University of Oklahoma | Bachelor of Science, Computer Science, Mathematics Minor, 3.6 GPA | Aug 2023 - Dec 2025

Northeastern State University | Worked toward a Bachelor of Science, Computer Science | Jan 2022 - Dec 2022

Tulsa Community College | Associate of Science in Pre-Nursing | Jan 2020 - May 2021

Important Projects & Course Content

Swipe | Full-stack developed an app via React Native/ Expo, NodeJS, and MySQL in a group for Capstone that connected students looking for internships and job opportunities to teachers needing those roles fulfilled.

AI Policy Map | Full-stack developed a website via React Native/ Expo and FastAPI in a group for AI Ethics that displayed AI policy and development information via a US and International map.

Parallel Distributed Networking | Managed 4/5 group projects during the semester that focused on loop optimizations to speed up processing for matrix calculations on virtual machines and OU's supercomputer.

Machine Learning | Learned algorithm theory and Python fundamentals of supervised machine learning. Some models and concepts include linear and logistic regression models, k-nn, decision trees, clustering, and neural networks.

Database Management | Created Azure SQL databases, relational schemas, ER diagrams, and queries for database manipulation on Azure, VSC, or using Java.

dabobba.weebly.com | Created my first website to display the coursework completed at Northeastern State University.

Inbound Logistics Solution | Implemented a sort and stock solution at Target that was adopted at other stores to improve repack merchandising accuracy by 80% and decrease sort and stock times by 30%.

Work History

BJ's Restaraunt and Brewhouse | Server, Trainer | Norman, OK | June 2024 - Present

Habitat for Humanity | Construction Coordinator Internship | Norman, OK | April 2023 - August 2023

Army National Guard | SPC E-4 | Carpentry Masonry | Norman, OK | October 2021 - Present

Target | Trainer Inbound Logistics and General Merchandise | Owasso, OK | October 2019 - May 2022

Seasonal UPS & Grub Hub Delivery Driver & Stay at Home Mom | Denver, CO | June 2015 - October 2019

QuikTrip | ER Clerk, Marketing Team | Tulsa, OK | May 2014 - June 2015

Honors

Awarded Cum Laude for Graduating with 3.6 GPA at the University of Oklahoma | December 2025

Awarded for Quality Performance at BJ's Restaurant and Brewhouse | August 2025

Awarded for High Scoring Physical Fitness Test | June 2023

Awarded Honor Grad and Class Leader at Army Advanced Individual Training | March 2023

Awarded Community Service Recognition for Volunteering 200+ hours | May 2015

Awarded multiple 1st place trophies for Sparring and Kata in Shotokan Karate Tournaments | May 2015
